

K-Love is a ministry tool that serves me and my community through radio. It brings me a positive Christian message that uplifts my spirits when I listen. K-Love has a great effect on the local community as well. It has a positive and encouraging impact sharing the messages that this great country was formed on. I believe K-Love is an asset far too great to measure in this community and I strongly encourage you to help keep K-Love on the air. May God Bless you and our great Country!
